

# KEEP IT CLEAN

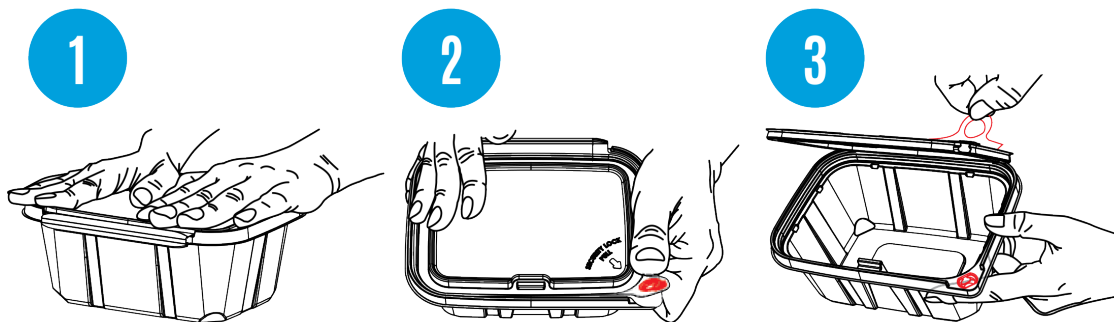

## TAMPER EVIDENT

Tamper evident packaging provides consumer confidence that the prepared product is safe from contamination.

Eatery Essentials' **BUT-N-LOC** tamper evident containers have no plastic tear-off strips so there is no separate piece to discard.

The engineered tight rim seal and audible click of the security button tab promise a leak resistant experience.

- Ideal for grocery, university, K-12, airports, cafeterias, supermarkets, delis, wholesale clubs and C-stores.
- Two-piece and hinged lid tamper items share the same security button lock tab, **no litter tamper feature. NO 3rd piece to dispose of.**
- Tight lid fit prevents spills – in the store and on the go – and helps maintain product freshness.
- Eliminates the need for costly shrink bands and wrap labels.

**BUT-N-LOC**
